ENHANCED HONEYCOMB NETWORK

EHC 2 – No void vertex

EHC 3

Metric Dimension – 4

No. of vertices – 54

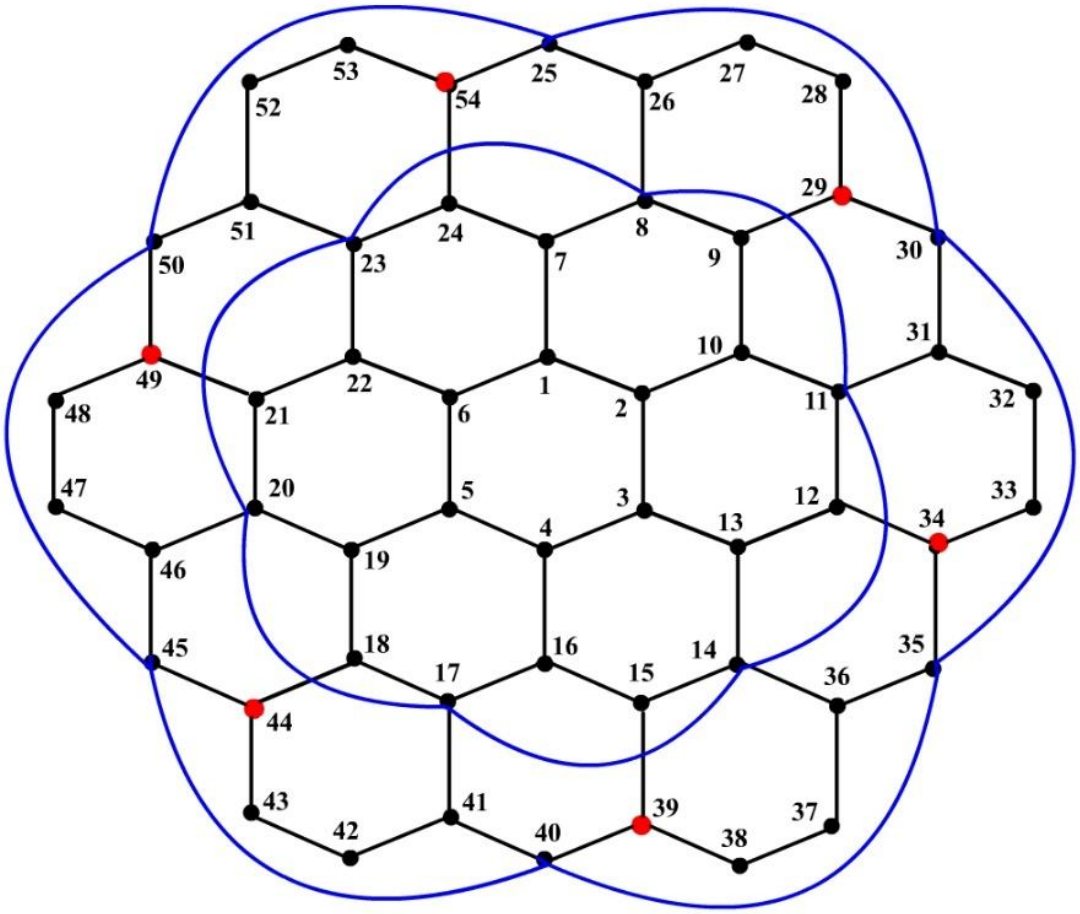

No. of void vertices – 6

BIGS index – 63

Ratio between the number of vertices and the number of void vertices

1 : 9

PERCENTAGE- 11.11 %

EHC 4

Metric Dimension – 4

No. of vertices – 96

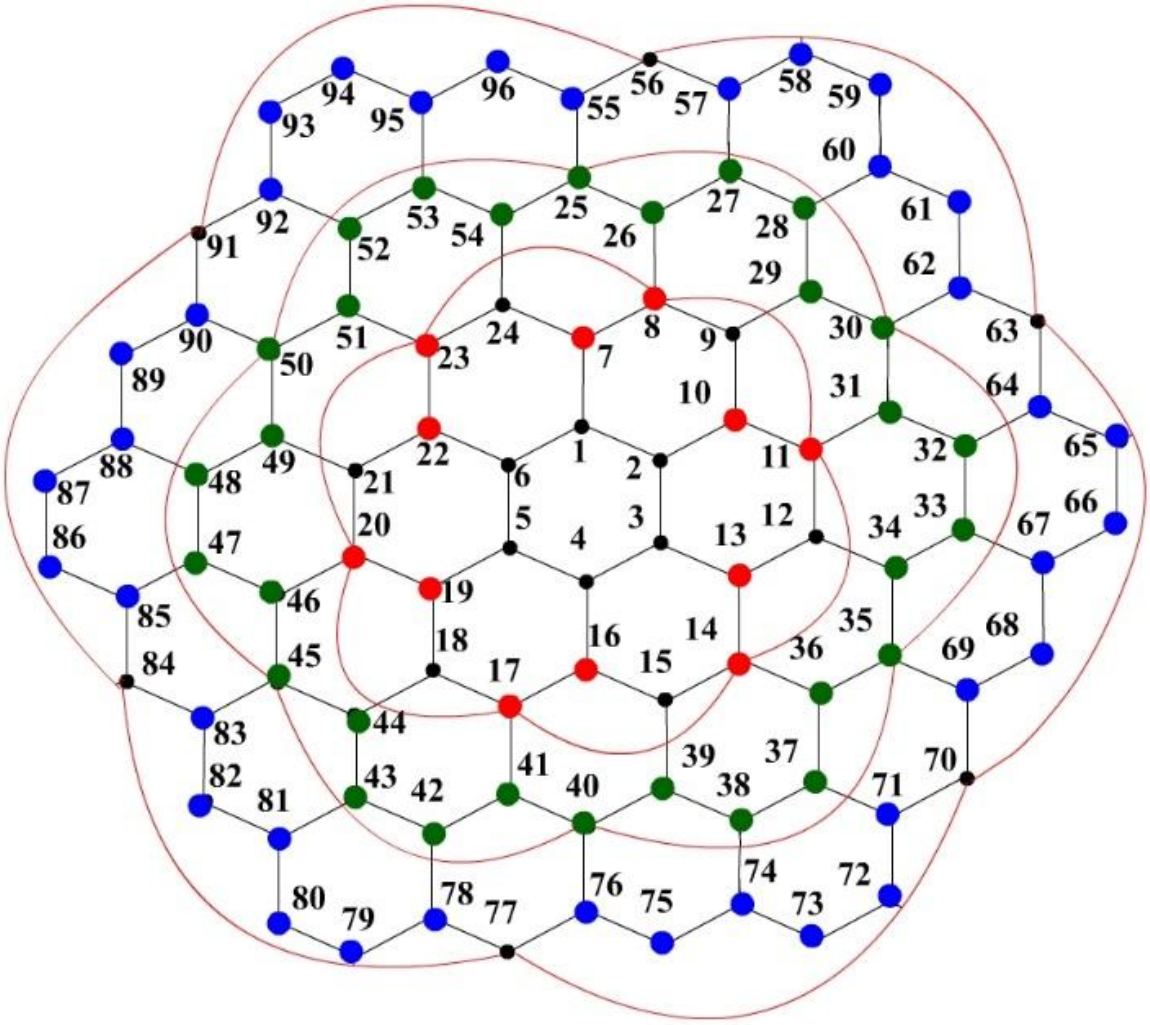

No. of void vertices – 84

BIGS index – 3

Ratio between number of vertices and number of void vertices

7 : 8

PERCENTAGE- 87.5%

EHC 6

Metric Dimension – 5

No. of vertices – 216

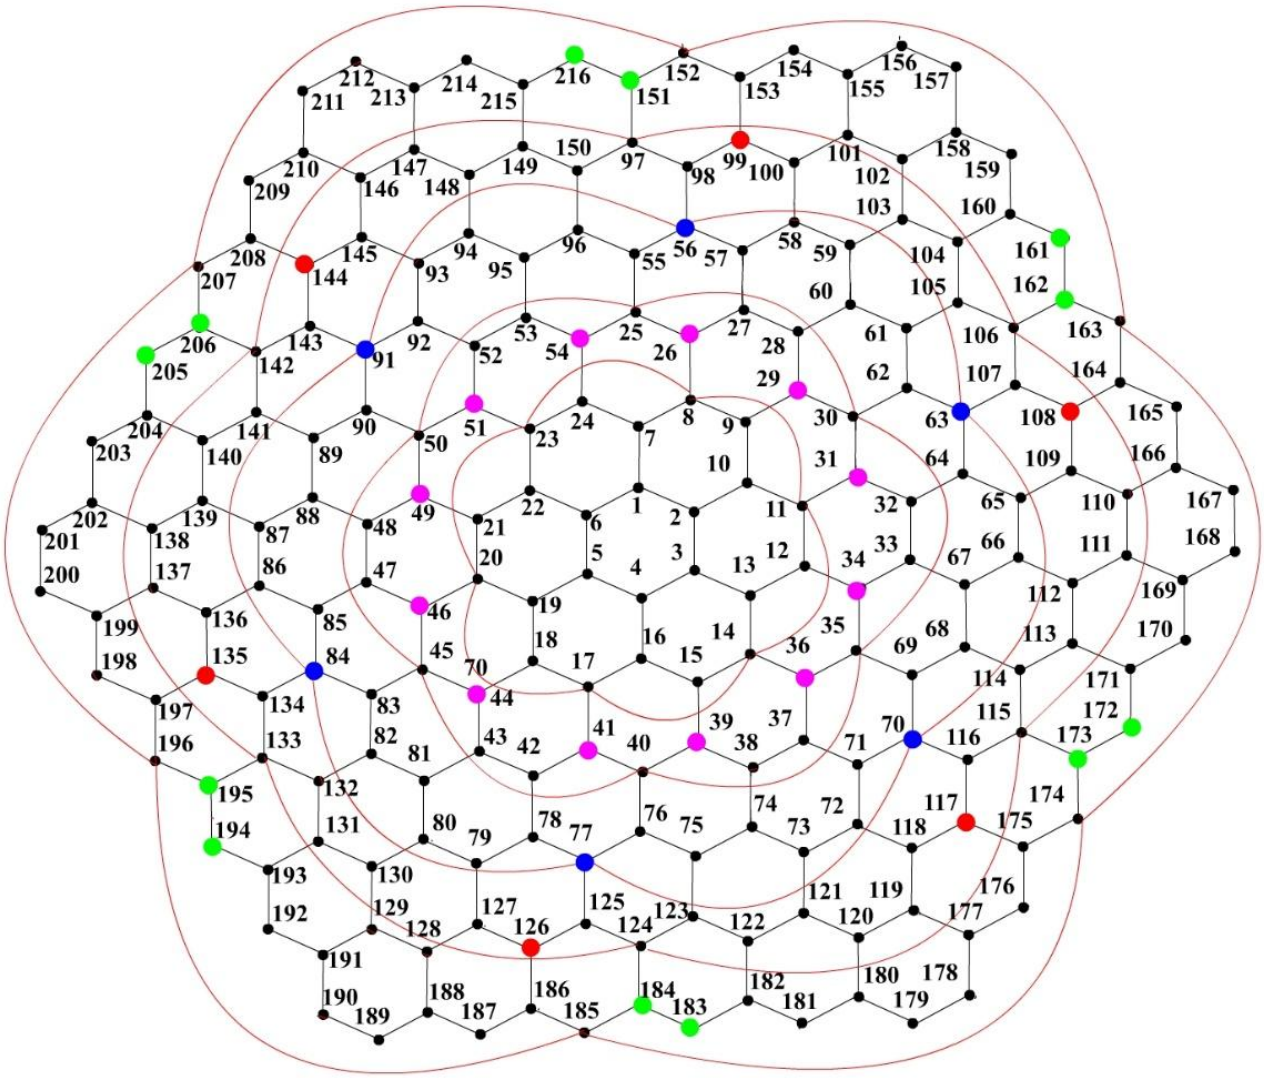

No. of void vertices – 36

BIGS index – 2574

Ratio between number of vertices and number of void vertices

1 : 6

PERCENTAGE- 16.67 %

EHC 7

Metric Dimension – 5

No. of vertices – 294

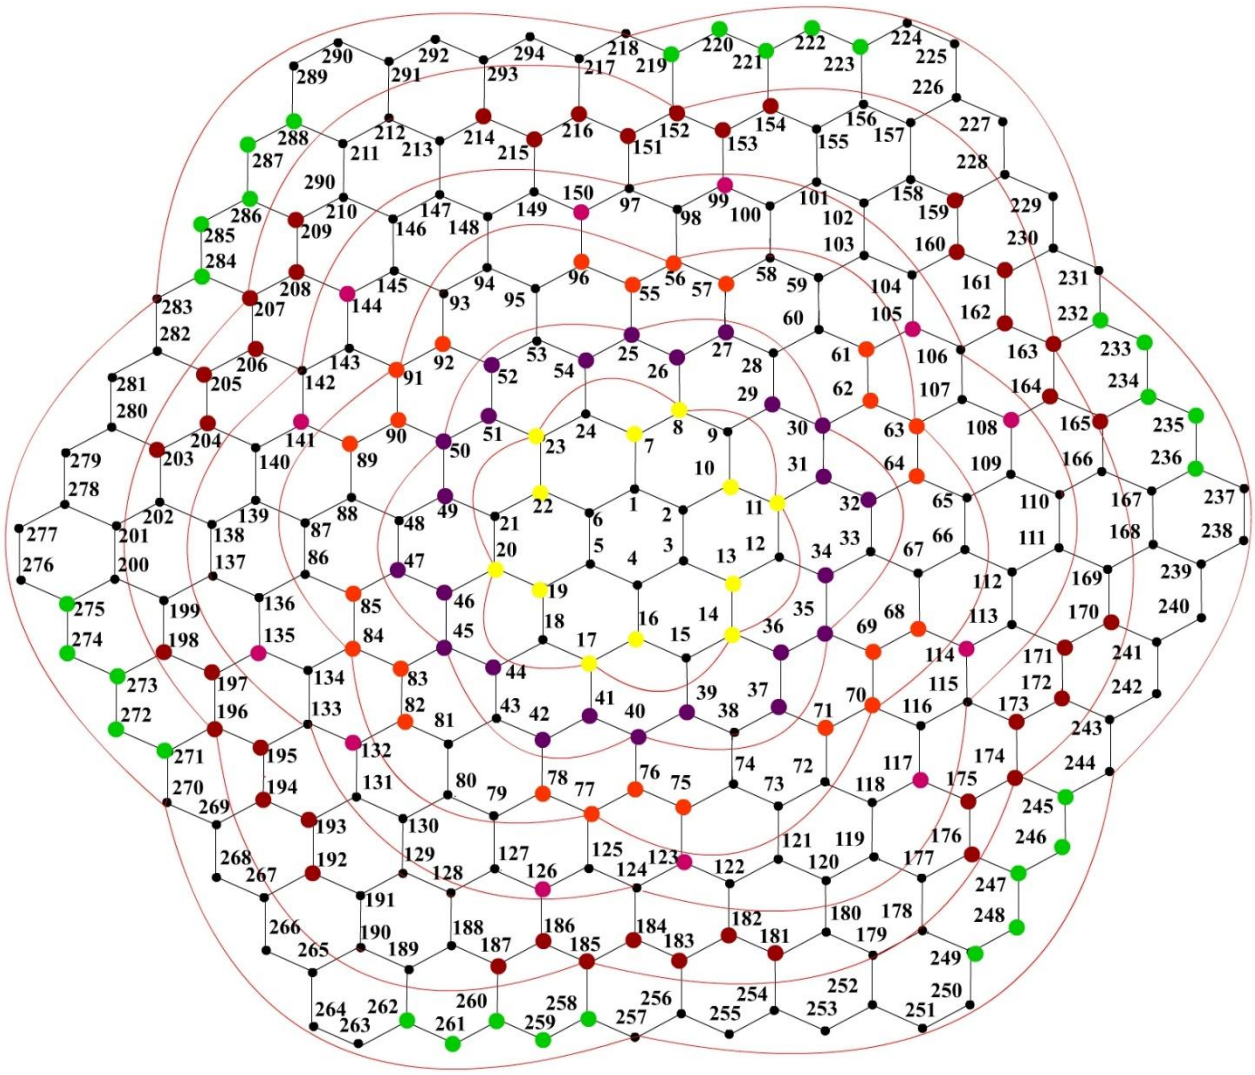

No. of void vertices – 144

BIGS index – 1554

Ratio between number of vertices and number of void vertices

24 : 49

PERCENTAGE- 48.98 %

EHC 8

Metric Dimension – 5

No. of vertices – 384

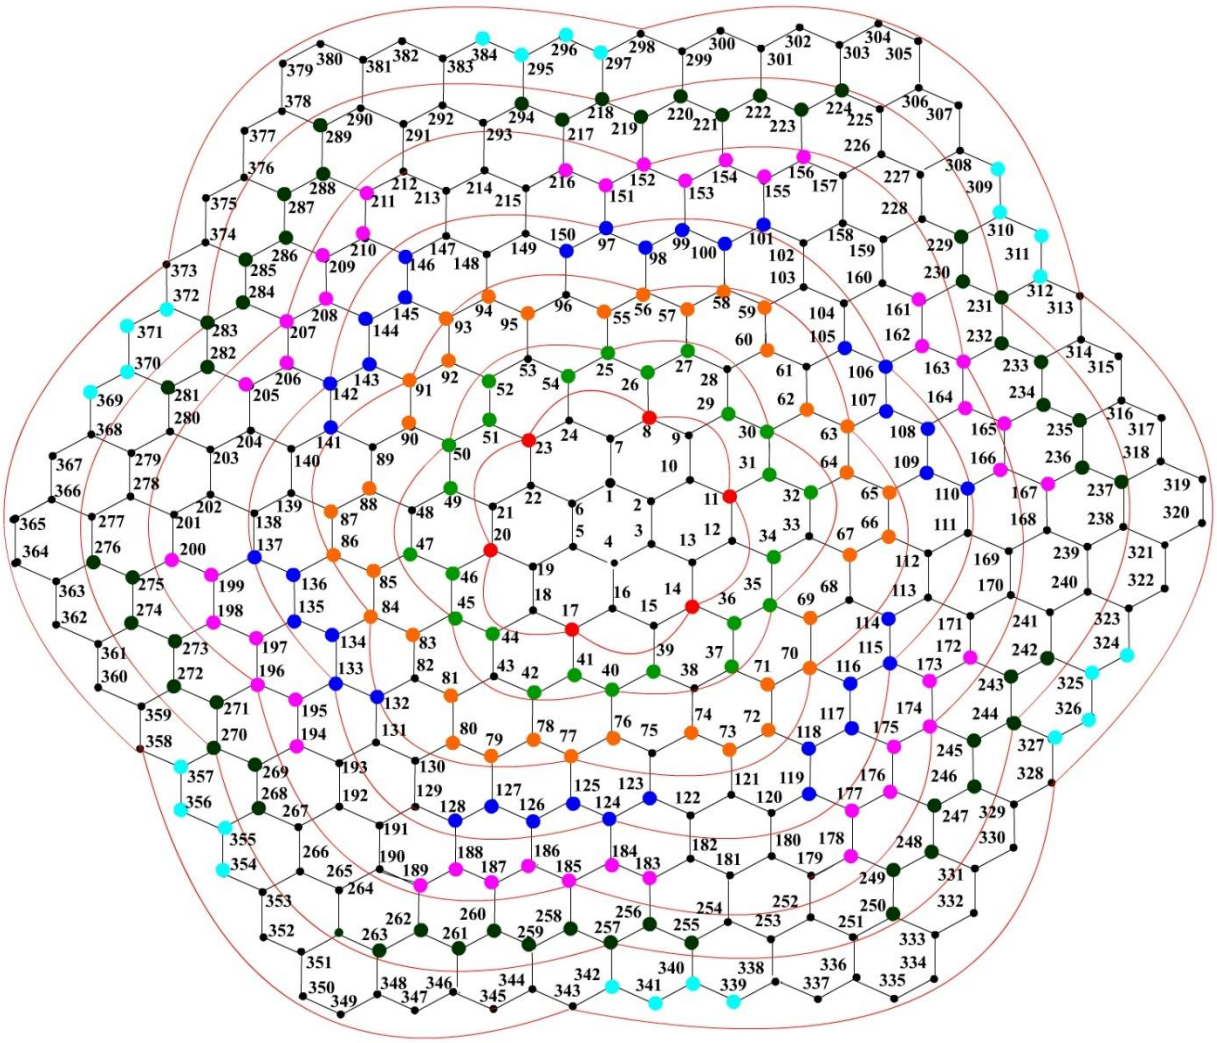

No. of void vertices – 222

BIGS index – 2118

Ratio between number of vertices and number of void vertices

37 : 64

PERCENTAGE- 57.81 %

EHC 9

Metric Dimension – 5

No. of vertices – 486

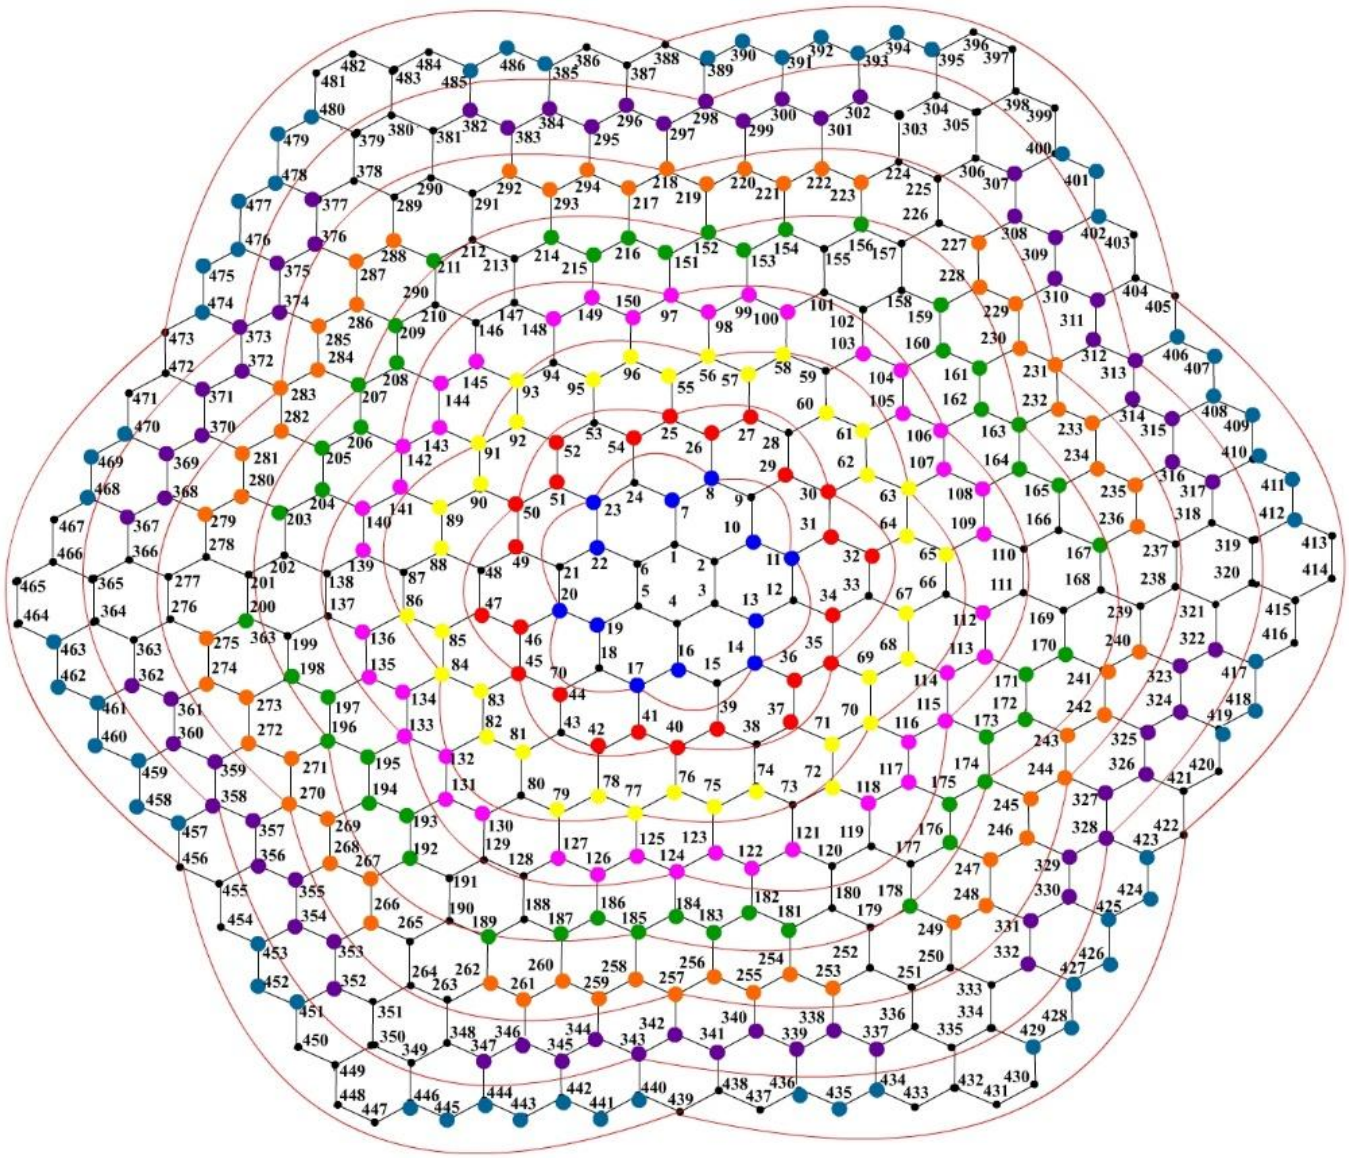

No. of void vertices – 348

BIGS index – 2262

Ratio between number of vertices and number of void vertices

58 : 81

PERCENTAGE- 71.60 %

EHC 10

Metric Dimension – 5

No. of vertices – 600

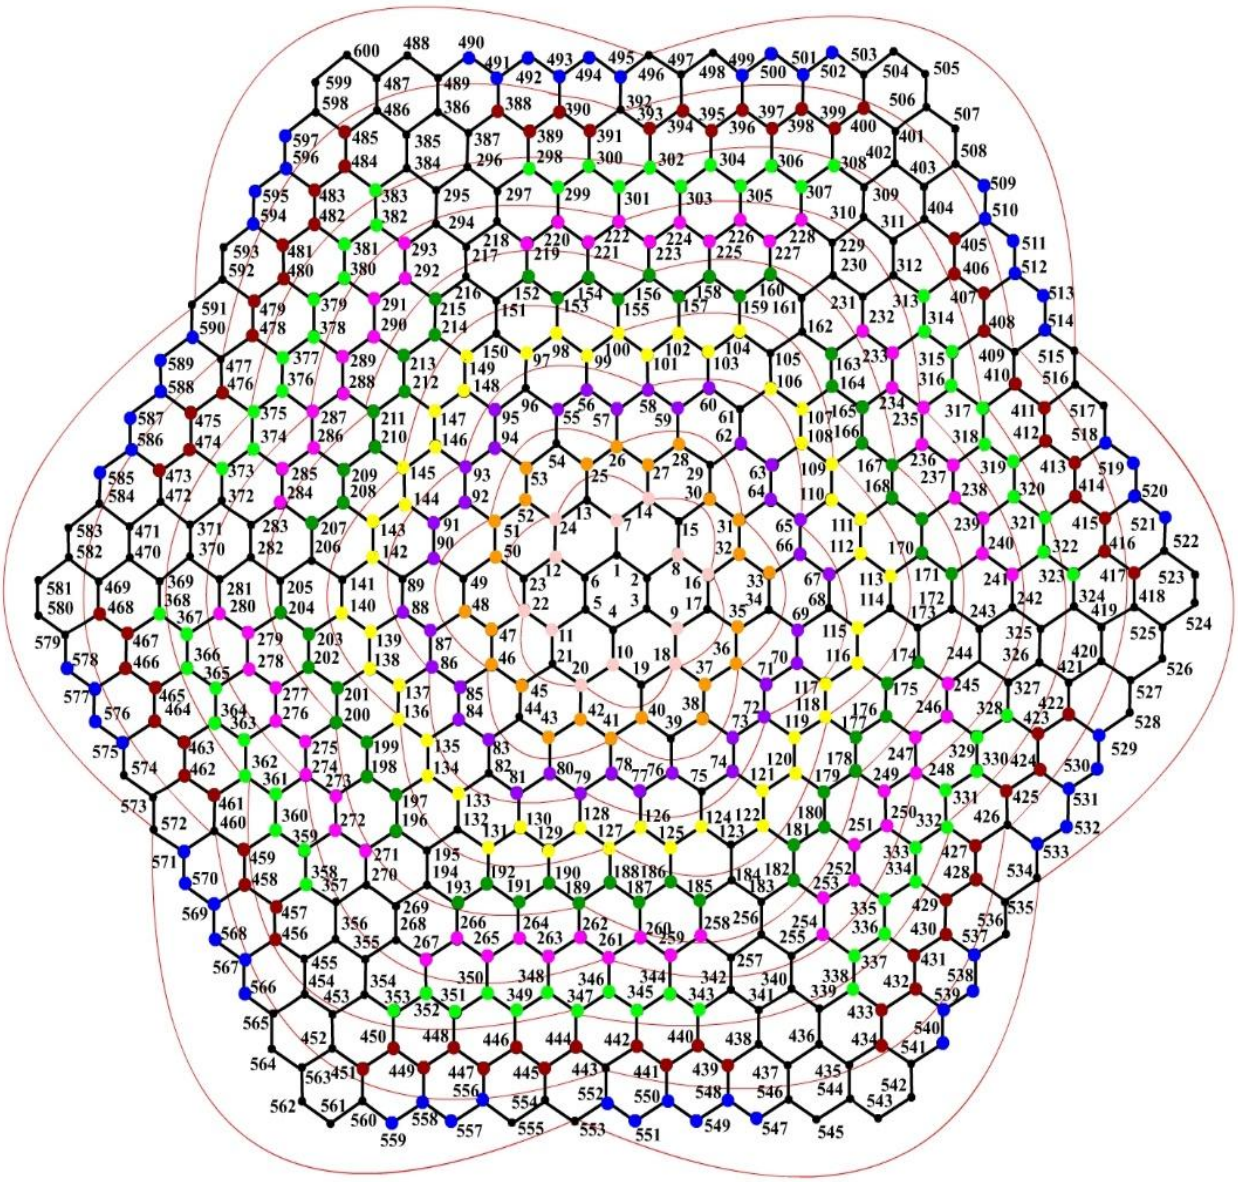

No. of void vertices – 432

BIGS index – 3300

Ratio between number of vertices and number of void vertices

18 : 25

PERCENTAGE- 72 %

$EHC\,(n)$	Vertices	Void Vertices	$BIGS\ index$	Ratio	Percentage
